COLOR PALETTES FOR CHAIR AND STOOL UPHOLSTERY

color your world

Color does more than look beautiful. It adds warmth. It can make spaces appear cheerful, calming, cozy, classic, or trendy. Color establishes a mood and evokes an emotion. Carefully chosen, color can convey the success of your practice. As you use this brochure, think about the colors that reflect you, your staff, and your practice as a whole.

get the look you like

Inspired by the latest color trends in home and office design, A-dec's newly enhanced upholstery palette features luminous, impactful colors. Both our sleek, sophisticated seamless upholsteries and soft, luxurious sewn upholsteries are available in a multitude of new designer colors.

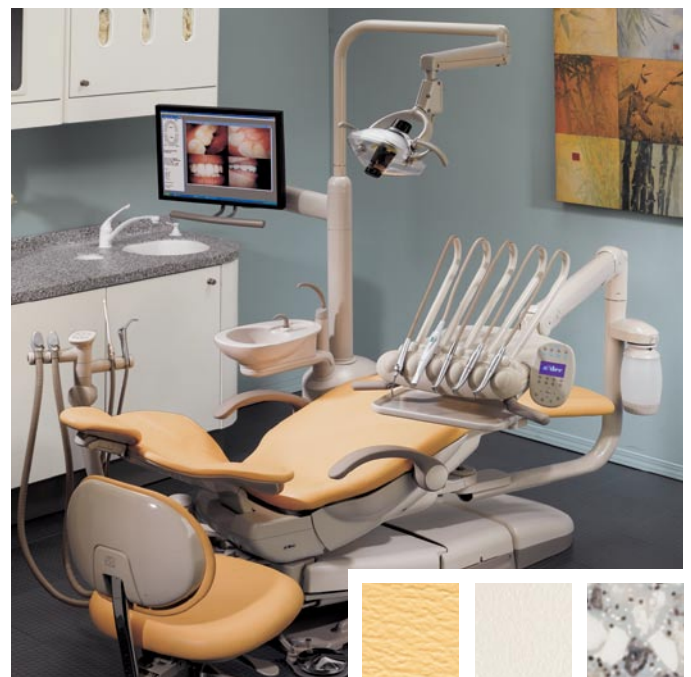

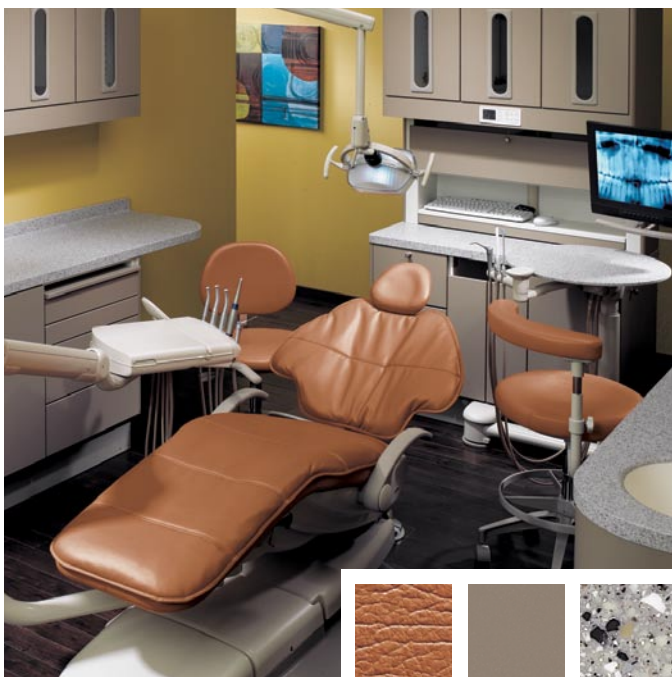

sewn upholstery

Sewn upholstery has the plush, buttery feel and comfort of real leather. Engineered for strength, softness, and colorfastness, it maintains the look of genuine leather, over time, retaining a subtle grain pattern. Sewn upholstery is available on the A-dec 511 and Cascade® chairs.

seamless upholstery

Our seamless upholstery offers a vacuum-formed fit with no visible seams. The result is a streamlined look that's easy to clean and maintain. Seamless upholstery is available on A-dec 511, Cascade, and Performer® chairs.

Whatever you choose, both sewn and seamless A-dec upholsteries are easy to replace when worn, or when it's simply time to refresh and update the look of your treatment room.
